DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are indefinite since claim 4 claims both an apparatus and the method of using the apparatus.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 4-14 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims are directed to neither a "process" nor a "machine", but rather embraces or overlaps two different classes of invention set forth in 35 U.S.C. 101.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3739

Claims 4-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Flachenecker et al. (US 4818954). Flachenecker et al. disclose an electronic scalpel comprising a manipulator (7), a rectifying circuit (11) of the main voltage supply; and at least one radio frequency circuit (figure 1) as claimed.

Response to Arguments

Applicant's arguments with respect to claims 4-14 have been considered but are not persuasive. Applicant's arguments only address the limitations contained in the method claims.

Allowable Subject Matter

Claims 1 and 2 are allowed.
